Global Fishing Watch
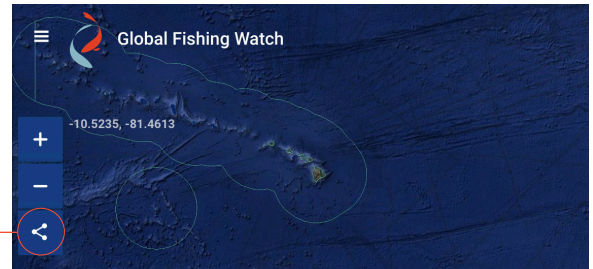

Sharing what you find

How can I save or share a workspace?

You may share your current view by clicking on the share icon on the left side of the map below the "+" and "-" icons.

This will bring up a link to your map, which you can copy and save or share the link for future reference, share with someone, or embed your workspace.

How can I embed a workspace in another site?

The embed feature lets you generate a html code that you can include on your website to display a simplified version of the Global Fishing Watch map. To do so:

1. Prepare the view you want to share (pan, zoom, select vessels, enable/disable layers).
2. Click the share icon on the left side of the map, below the "+" and "-" icons.
3. Click on `Embed` next to `Link.`
4. Select the embed size.
5. Copy the code.
6. Paste it in your website.

How do I cite Global Fishing Watch if I use your map or data?

To cite us in a bibliography or use the entire website as a source, use the following citation format:

Global Fishing Watch. [2019 or current year in the copyright notice at the bottom of the home page]. www.globalfishingwatch.org

To cite a screen shot, image, data product, or other material from our website, include any attribution and use the following citation format:

Global Fishing Watch. [2018 or current year in the copyright notice on the page accessed]. Accessed on [date accessed]. [Link to the page].
